

INTERNATIONAL
HELLENIC
UNIVERSITY

MSc in **Energy Law, Business, Regulation and Policy**

The Programme

The Programme aims to provide postgraduate-level studies specializing in Energy Law, Business, Energy Policy, Geostrategy, Environmental Issues, and regulatory intervention in the energy sector. Given the rapid transformation in the energy sector, the need for highly skilled professionals who understand these complex interrelationships has never been greater.

Programme Structure *(Three Terms)*

During the first term, full-time students are required to follow 5 mandatory courses. During the second term, full-time students follow a further 4 mandatory courses and 2 elective courses. During the third term, work is dedicated exclusively to the Master's Dissertation.

First Term

- ▶ Energy Law I
- ▶ Energy Economics
- ▶ Energy Transport & Storage
- ▶ Foundations of Finance in the Energy Sector
- ▶ Alternative Dispute Resolution in the Energy Sector

Second Term

- ▶ Energy Law II
- ▶ Energy and Environmental Policy
- ▶ Cross-border Energy Trade
- ▶ Energy Politics & Security

The Elective Courses *(students choose two)*

- ▶ Management and Design of Renewable Energy and Sustainability Systems
- ▶ Water Law & Policy
- ▶ Quantitative Methods for Energy and Environmental Economists
- ▶ Mergers and Acquisitions in the Energy Industry
- ▶ International & European Environmental Law & Policy
- ▶ Derivatives for Energy
- ▶ Recent Developments in Energy Law & Business
- ▶ Recent Developments in the Electricity Sector

Schedule

Duration of the Programme

3 Semesters full-time (FT) or 6 Semesters part-time (PT)

Lectures are held on weekends (twice a month on average), while examinations take place on weekday afternoons.

Teaching of courses can either take place in a classroom or/and through **distance learning** as defined by current relevant legislation.

A Holistic,
inter-disciplinary
approach to Energy
Law, Business, Markets,
Regulation, Policy &
Environment

MSc in Energy Law, Business, Regulation and Policy

- ✓ **Distance Learning** (Teaching of courses & examination take place through distance learning; flexible study options)
- ✓ **Global Perspective** (Expert International Faculty & Content)
- ✓ **Public University**
- ✓ **English Instruction** (all courses are taught in English)
- ✓ **Mode: classes only on weekends** (Convenient for working Professionals)

The Master's Dissertation

In order to be awarded the MSc degree, students must take 9 core courses, 2 elective courses, as well as a Master's Dissertation. By the end of the taught courses, students will choose a dissertation topic relevant to the MSc programme. The topic is chosen by the student, based on his/her academic interests, with input and advice from a faculty member, who acts as the supervisor, working closely with the student. The dissertation is an individual paper of original scientific work.

Admissions

Our admissions policy supports equality of opportunity. We are focused on building a student community from various backgrounds and national origin.

To be considered for a Master's programme, candidates are required to have:

- ▶ A good university degree from a recognised University
- ▶ English language certificate with a good score (IELTS or TOEFL or Proficiency)

Target Audience

The MSc is aimed at graduates in Law, Political Sciences, Economics, Business Studies, Engineering, and related specializations, with a strong motivation to acquire or broaden their specialization and pursue a career in energy related domains.

Career Path

The MSc Programme offers a highly flexible qualification suitable for a wide range of career opportunities in many sectors. Our graduates acquire specialized knowledge and expertise for successful careers in national and international organizations, energy companies, law firms, regulatory authorities, and public sector entities dealing with energy issues.

Collaborations-Partnerships

We have fruitful collaborations with various organizations based on signed Memoranda of Understanding, such as i) the Regulatory Authority for Waste, Energy and Water, ii) DESFA (National Natural Gas System Operator S.A.), iii) Law Firms, iv) the Bar Association of Thessaloniki, v) Universities abroad, as well as other Institutions, offering our students and graduates a wide range of free seminars, workshops, as well as chances for internships.

Applications are open!
